

CLASSNOTES: DAY 8

Today's schedule:

- Warmup tasks 1_2_3
- What is Properties type of file
- How to read from a properties file
- Why do we read from it
- How do we implement it into our project

-
- What is the topic? What are we doing?
 - Why are we learning?
 - What kind of issue we are solving with this?
 - What are we making easy by using this?
 - How are we using it?
 - How are we implementing it into our code (framework)?

`configuration.properties`

`testData.properties`

`data.properties`

-> the part before "." dot, is the name of the file.

- name: configuration

-> the part after "." dot, is the type of the file.

- type: .properties

IF YOU ALWAYS DO WHAT YOU HAVE ALWAYS DONE, YOU WILL ALWAYS BE WHERE YOU HAVE ALWAYS BEEN.
